Add a simple products to WooCommerce

WooCommerce products work like any other post type such as posts or projects.

To add a product log in to your site and navigate to [Products] [Add New Product]

Add your product title, description and product image

A screenshot of the 'Add new product' form in the WooCommerce dashboard. The form is titled 'Add new product' and includes a 'Product Name' input field. Below it is a 'Permalink' field with a default URL and an 'Edit' button. The 'Product description' section features an 'Add Media' button, a rich text editor with various formatting tools (bold, italic, list, quote, link, etc.), and a 'Visual'/'Code' toggle. The 'Publish' sidebar on the right shows the product status as 'Draft', visibility as 'Public', and options to 'Save Draft', 'Preview', 'Publish immediately', 'Copy to a new draft', 'Move to Bin', and 'Publish'. At the bottom of the sidebar is the 'Product image' section, which displays a placeholder image of a black hoodie on a pink and purple background. The main content area shows a 'Word count: 2' and a 'Draft saved at 20:16:15' message.

Then scroll down and set your regular price
