Adding a Blog to a Divi Website

Create a new page to host your blog posts.

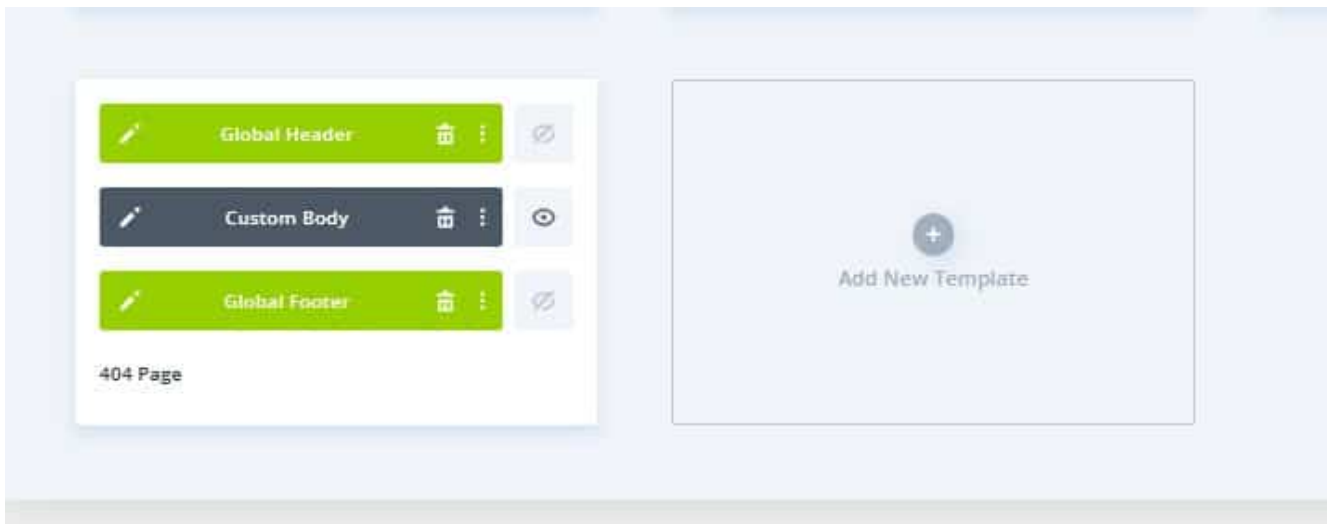

Add a Blog Module

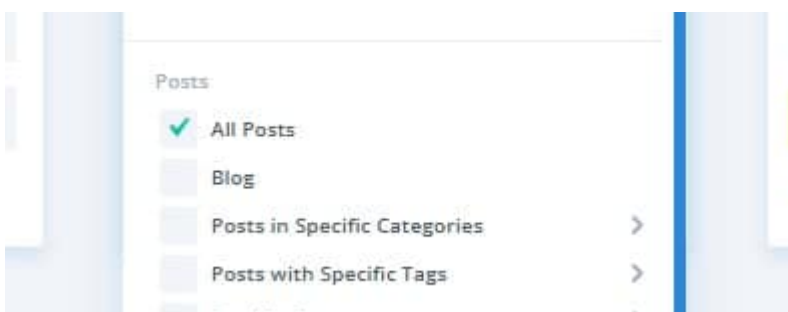

This is where your blog posts will be displayed.

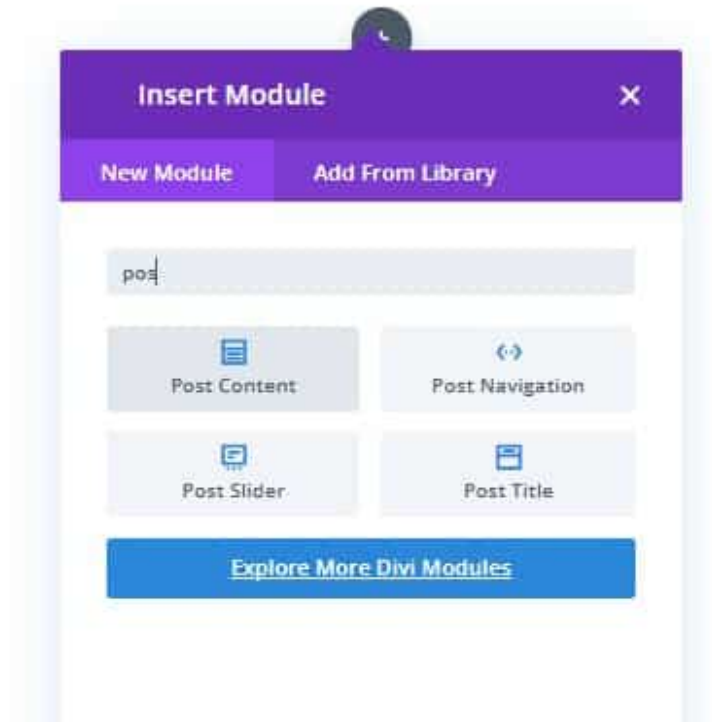

You will also need to style the posts template, to do this go to [Divi] [Theme Builder] then click “New Template”

Select “All Posts” then click “Create Template”

Here you can create your blog post template and use special dynamic modules to fill in the blog content.

Made with the help and support of [Inclusive Bytes CIC](#)
