Creating a Divi Website with AI

Login to the dashboard and navigate to [Divi] [Dashboard]

Click [Generate a new site]

Divi Quick Sites

Use Divi Quick Sites to generate a new website using Divi AI or premade Divi Starter Sites. Quick Sites will set up your entire site including custom pages, menu items, Theme Builder templates and more.

[Generate A New Site](#)

Click [Generate My Website]

GENERATE YOUR SITE WITH AI

Simply describe your website, sit back, relax, and let Divi AI create your entire website for you in less than 2 minutes.

[Generate My Website](#)

Fill in the form in as much detail as possible and then click [Generate My Site]

Tell Us About Your Website

Input your website information and tell Divi AI about your website or business. The information you provide will be used to generate content, images and make design decisions.

Site Name

Temp Tattoos

Site Slogan

Tell Divi AI About Your Website

Prompt: Design a single-page website for a service where users can upload a custom tattoo design and get it printed as a temporary tattoo and posted to them. The site should have a dark, moody aesthetic that captures the vibe of a traditional tattoo studio — think black backgrounds, vintage textures, bold serif fonts, and deep red or off-white accents. Include: A hero

Generate & Publish My Website

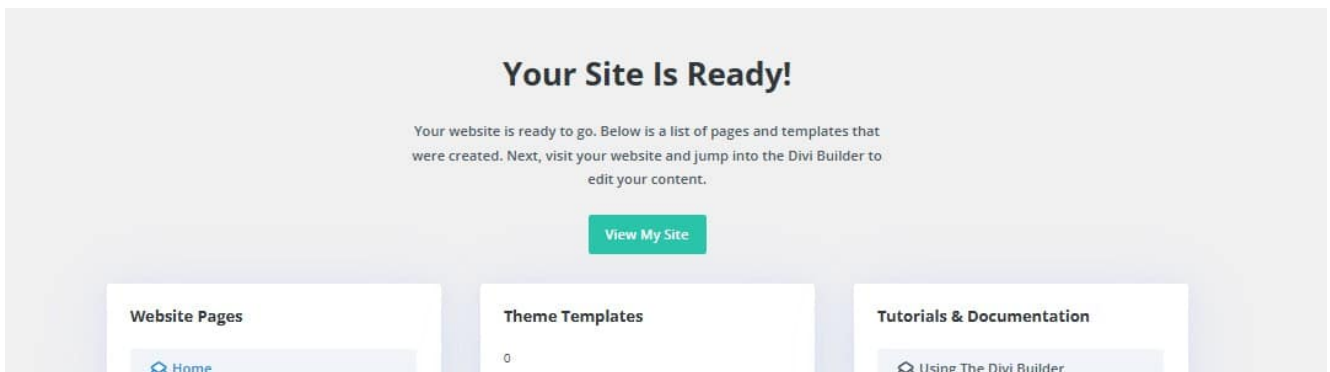

It may take several minutes for the site to generate. It is best to only generate 1 site at a time.

Building Your Website

Your website is being created! Sit back and relax while Divi Quick Sites generates content and configures your menu, templates, styles and presets.

Once completed click [View My Site]

You can now tailor the site to your needs.
