How do I duplicate a page in Divi?

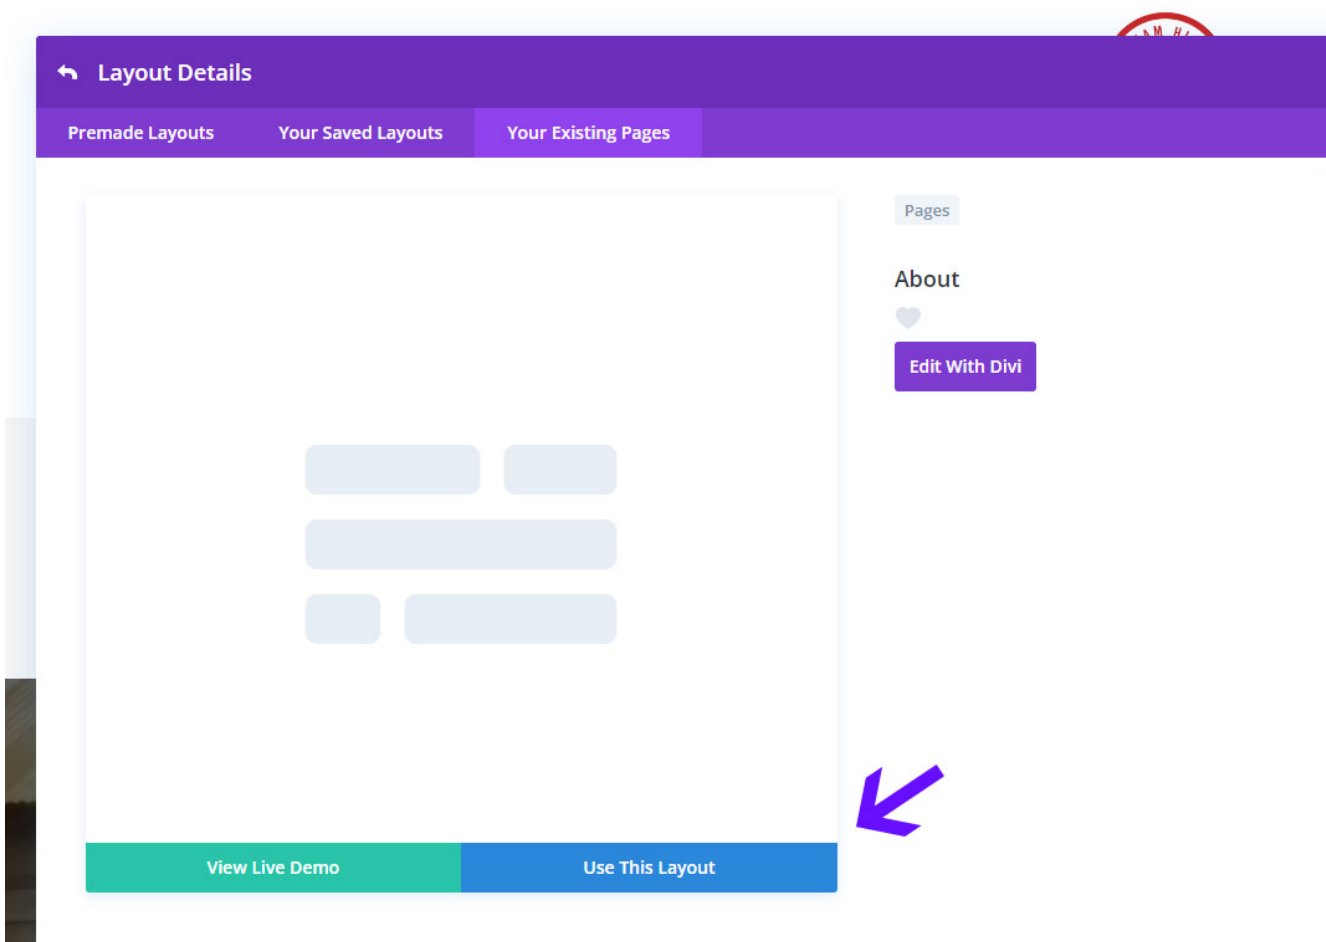

1. Click [Enable Visual Builder]

A screenshot of the Divi Visual Builder interface. It features three vertical panels. The first panel is titled 'BUILD FROM SCRATCH' and includes the text 'Build your page from the ground up. Don't worry, you can access our premade layouts at any time.' with a blue 'Start Building' button at the bottom. The second panel is titled 'CHOOSE A PREMADE LAYOUT' and includes the text 'Choose from hundreds of world-class premade layouts or start from any of your existing saved layouts.' with a purple 'Browse Layouts' button at the bottom. The third panel is titled 'CLONE EXISTING PAGE' and includes the text 'Jump start your layout design by duplicating another page that you've already built.' with a green 'Choose Page' button at the bottom. A purple arrow points to the 'CLONE EXISTING PAGE' option.

3. Click on the page you want to duplicate

4. Click [Use this layout]

5. Then [Exit Visual Builder]

Lorem Ipsum
