# How to manage and configure BT Wi-Fi

Type **192.168.1.254** into your web browser's search bar and click enter.

This will take you to a view-only page. To actually make changes you will need to enter you WIFIs' admin password which can be found at the back of your router. Then you will be able to make changes.

Made with the help and support of [Inclusive Bytes CIC](#)
