How to Pin an App to the Taskbar (Windows)

Pin your favourite apps to the taskbar so you can open them quickly without searching each time.

1. Open the Start menu
Click the Windows icon in the bottom-left corner of your screen.
2. Search for the app
Type the name of the app you want to pin (for example, Chrome or Word).
3. Right-click the app
When the app appears, right-click on it.
4. Select "Pin to taskbar"
Click "Pin to taskbar" from the options.
5. Open it from the taskbar
The app will now appear at the bottom of your screen. Click it to open it anytime.
