## How to post videos on tiktok

Open the app and tap the “+” button at the bottom of the screen to open the camera.

Record and upload: Hold the red button to record and tap upload at the top right to choose the existing video from your camera roll.

After recording you can add sounds and music by tapping sounds at the top to apply filters and effects and much more.

Add a caption: a hook or a description of the video, relevant #hashtags and tag people if relevant through @mentions.

Configure who can view, allow comments duets, and stitches and tap post which is the red post button and the video goes live.
