How to reset Windows 10

Step 1: Turn the computer on

Step 2: Locate the shift button on the left, Just above the control key

Step 3: Press the shift button as you reset the pc./computer

Step 4: Click on the trouble shoot option displayed on the screen

Step 5: Choose to reset the pc

Step 6: Choose to Remove everything

After that it should delete all the data, which is good if you don't want your data to stay on before giving it to someone or donating it.
