How to transfer data from Android to iOS

Before you start:

- Phones should be charged above 50%
- Connected to Wi-Fi
- Enough Storage
- Keep both phone close to each other

Step 1: Set Up your iPhone

Go to settings and search for **Apps & Data** screen and tap **Move Data From Android**.

Step 2: Install App on Android

1. Open Google play store
2. Download move to iOS.
3. Open the App.

4. Tap continue.

5. Allow permission.

Step 3: Enter code

1. On your iPhone, tap continue.

2. A 6 or 10 digit code appears.

3. Enter the code on your Android phone

Step 4: Chose what to Transfer

1. Select what to transfer. For example, contacts, photos, videos and etc.

2. Tap continue.

3. Wait until loading bar finishes on both phones.

Step5: Finish iPhone setup

1. Tap done on Android.

2. Tap continue setting up iPhone.

3. Sign up with your Apple ID.

Additional Information:

Some apps might need to be downloaded manually.
