Proton Pass

Proton Pass: A password manager (mobile version)

1. Install proton pass from the play store.
2. Sign up.
3. After signing up, it will ask if you want to enable fingerprint lock to make sure that only you can access your password.
4. Then, click the profile icon and check if autofill is enabled, then click on the settings icon and make sure that prompt for auto-save is enabled.
5. Now, everytime you login or signup in an app, you will prompted to save it in proton pass. Next time you go to login to the app or website, it will autofill.

Assurances that proton pass provide

1. End-to-End Encryption
2. Open source codes, allowing independ security researchers to be able to verify protons' claims.
3. They do not sell user data
